EXPERIENCE

Taproute

July '17 - Dec '17

- Worked with TapRoute (now Uni) in Bengaluru; winners of the STAMP accelerator; aiming to provide multi-modal integration to public transport in our cities.
- Worked in Bengaluru - and continued to work remotely - to create the front and back ends of the rider mobile application using the Ionic framework and Firebase.

SELECTED PROJECTS

FatehMetrics : *Engine data visualization system*

Mar '17 - June '17

- As part of the college's Formula Student (race car building) team, built a web-based dashboard to collect and visualize engine test data in real time.
- Used Node and Express on the backend, AngularJS on the front-end and MLab MongoDB to store data.

Quizgen : *Delivered onsite quizzes to 1000+ users*

- Final : Javascript application to present quizzes in a grid-based format. Open sourced; used at multiple school/college events.
- Prelims : PHP application built to help create, host, grade, and display results of prelim rounds of quizzes in real-time.

Maintained

Nov '14

HONOURS AND ASSOCIATIONS

Formula Student Italy

July '17

- Represented the college at Formula Student, Italy - an international student engineering competition. Co-presented the business plan and design report. Placed 6th in the Business Presentation event.

MHacks Michigan

Oct '16

- Accepted to attend MHacks 8, a 36 hour hackathon/developer event in Detroit. Traveled to Michigan on behalf of the college and built Parkcore - an app that placed amongst top 5 entries in the Ford Go:Detroit track.
- Worked on the Google Maps API for Node.js applications.

Exun Clan : *President*

2014 - 15

- Placed in 30+ quizzes and managed school's technology resources while serving as member for 6 and President for 1 year of DPS RK Puram's tech society. Led team behind Exun 2014 - Delhi's largest inter-school tech event.
